SUMMARY

Enthusiastic Frontend Developer with a passion for crafting user-friendly features and optimizing performance. Leveraging expertise in CSS, HTML, and JavaScript, collaborating with teams to ensure seamless user experiences. Proficient in front-end frameworks like React. Skilled in agile methodologies, problem-solving, and delivering impactful solutions. Excited to contribute to enhancing user satisfaction and business success through innovative web design at the forefront of your company's mission.

EXPERIENCE

Frontend Developer

Darasani Hub　　📅 06/2024 - Present　　📍 Nairobi County, Kenya

Education and Tutoring

- Design, test, and implement user-facing features to enhance user experience and ensure responsiveness across various devices and browsers.
- Collaborate with a fellow front-end developer, backend developers, and the marketing team to create seamless and integrated web applications.
- Manage project tasks and track progress using Trello, and actively participate in regular stand-ups, online and in-person meetings to align on project requirements and updates.
- Coordinate with the technical team to ensure that designs meet performance, functionality, and cross-browser compatibility standards.

Frontend Web Developer

Clearlink Logistics　　📅 02/2023 - 01/2024　　📍 Nairobi County, Kenya
🔗 https://www.clearlink.ke/

Cargo and Logistics

- Collaborated with a team of developers to create, manage and maintain the website.
- Achieved a 99.9% system reliability by fixing 150+ bugs and updating inventory modules.
- Optimised content for SEO.
